Training

Core and Advanced Java Summer Training

June 2024 - July 2024

Programming Pathshala

- Polished core and advanced Java coding skills through guided mentorship and extensive hands-on practice during the summer training program, strengthening technical expertise.
- Developed a fully functional dating app where users can search and connect based on criteria such as age, location, interests, and gender, demonstrating a solid grasp of Java development.
- Scored 83 on the project implementation during the certification interview, showcasing technical proficiency and the ability to implement real-world solutions using IntelliJ IDEA.

Projects

Capstone Project | Java

June 2024 - July 2024

- Developed a backend system for a dating app that matches users based on age, gender, location, salary, interests.
- Strengthened my advanced Java coding skills by applying key concepts in project development.
- Developed the system to provide a smooth and seamless user experience, resulting in an A+ grade.
- GitHub Repository Link: <https://github.com/tayvol/Capstone-Project>

Music Website | HTML, CSS, JS

Feb 2023 - March 2023

- Created a music website that provides navigation to various aspects of an album launch, including visualizers, album orders, streaming platforms, and newsletter subscriptions.
- Improved my frontend development skills by mastering HTML, CSS, and JavaScript by learning how to integrate them seamlessly for cohesive functionality.
- Updated the website regularly with different music albums to enhance my skills and gain hands-on experience.
